

Aerial Straight Joint Closure

**UF-3042S FTTH Aerial Straight Joint Closure** is suit for inline, branch closure, the scope of application is aerial mounting, wall mounting.

### Applications

- Suitable for bunchy fibers.
- Aerial mounting, Wall mounting
- It's especially applicable to FTTH optical fiber distribution.

### Features

- The closure adopts horizontal mechanical sealing and advanced internal structure design, which was made from high grade Polycarbonate.
- 6 ports – Round type (3.5mm) or Flat type (2x3mm) drop cable both ends in and out, which is suitable for straight-through the fiber cable.
- The closure is spacious enough for winding and storing fibers.
- The patented sealing structure keep good sealing performance after re-entry and re-using.
- Support IP65 Standard
- Easy open and close of closure with clip lock.
- Max. 144 cores Fusing Splice available.

### Capacity

Outside dimension	:	350x210x113 mm
Weight (w/out box)	:	1,920g
Main cable ports	:	4 ports, $\Phi$ 8mm – $\Phi$ 16mm
Drop cable ports	:	16 ports, 3.5mm or 2x3mm
Max. capacity of	:	Bunchy 144 cores
Splice Trays	:	24F Per Trays, Max 6 Trays
Fiber Optic Splice Closure		

Order Information

Descriptions	Part Number
FTTH Aerial Straight Joint Closure 24-48 Core	UF-3042S
FTTH Aerial Straight Joint Closure 24-48 Core (TOT Project)	UF-3042S-TOT

Accessories

- |                     |                                   |
|---------------------|-----------------------------------|
| Hanging hook        | Heat shrinkable protective sleeve |
| Labeling paper      | Buffer tube                       |
| Cable tie           | Sandpaper                         |
| Seal tape & Oli     | Earthing wire                     |
| Insulation tape     | Cleaning tissue (Alcohol tissue)  |
| Installation manual |                                   |
